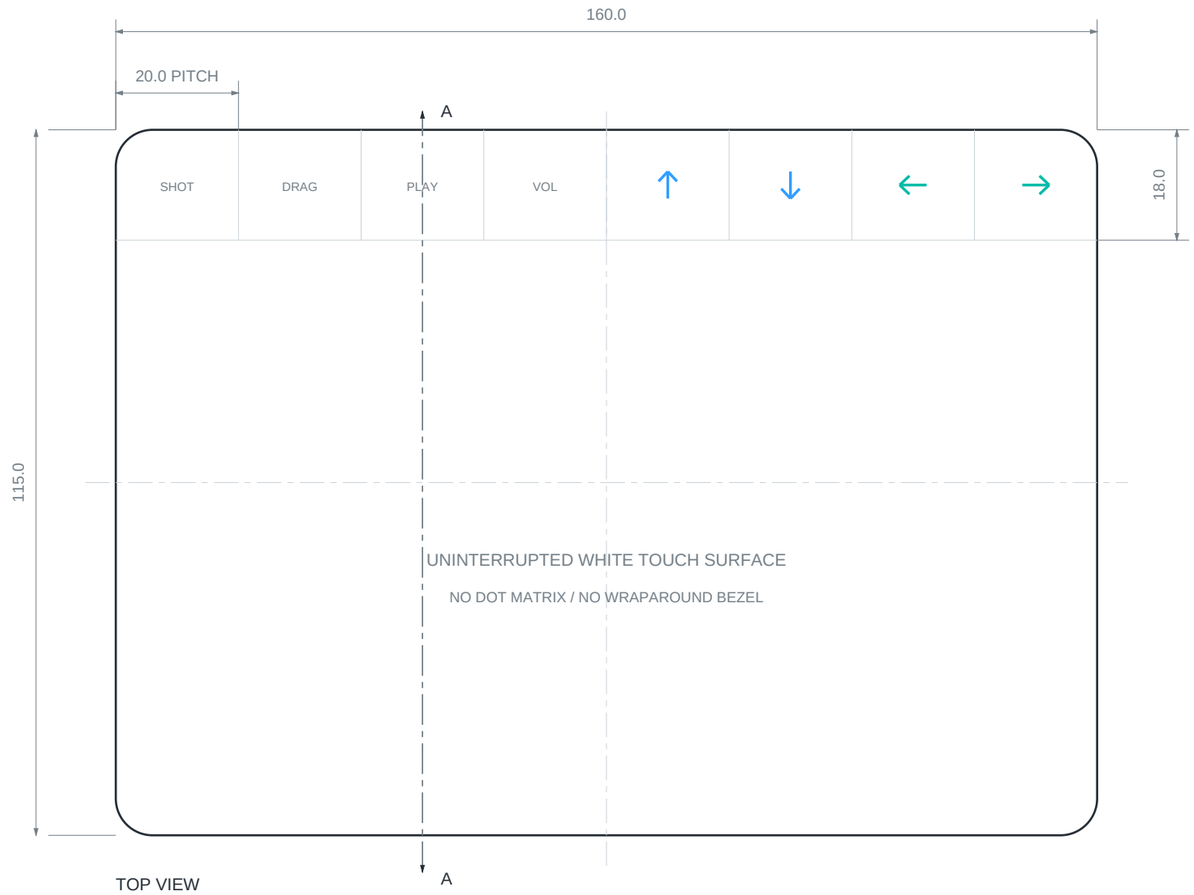
INTEGRATED TRACKPAD / V4

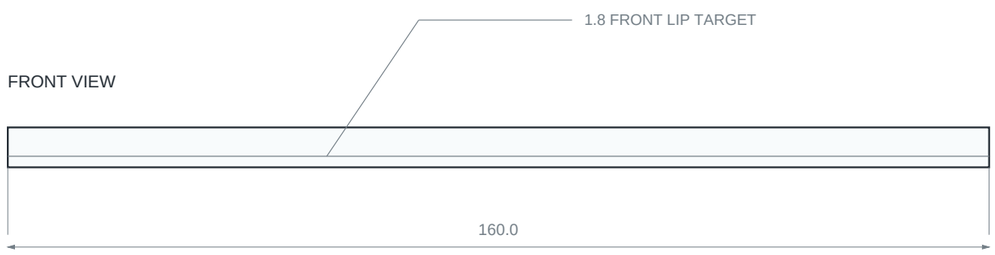
GENERAL ARRANGEMENT / ORTHOGRAPHIC ENVELOPE

INDUSTRIAL DESIGN STUDY

CONCEPT ONLY - NOT FOR MANUFACTURE



TOP VIEW



FRONT VIEW

RIGHT-SIDE VIEW / FRONT TO REAR

DESIGN INTENT

01 One continuous white top plane; low visual mass.

02 Eight flush keys within the rear 18 mm band.

03 Keys extend to free rear edge; no rear frame.

04 Near-invisible seams; clearance is not zero.

05 0.6 mm downward travel is a concept target.

06 Ice blue: up/down. Mint: left/right.

07 Profiles and dimensions define a study envelope.

Projection: top above front; right-side view to right.

Visible frame lines show drafting boundaries, not a metal bezel.

ALL DIMENSIONS ARE PROPOSED DESIGN TARGETS.

No validated tolerances, material release, BOM or tooling data.

Print A3 at 100% for stated scales. Do not scale PNG previews.

FLUSH PIANO-ACTION / WHITE GLASS / ICE BLUE + MINT			
DRAWING: TP-V4-001	REV: A	SHEET: 1/3	SIZE: A3
SCALE: 1:1	UNITS: mm	2026-10-20	STATUS: STUDY

INTEGRATED TRACKPAD / V4

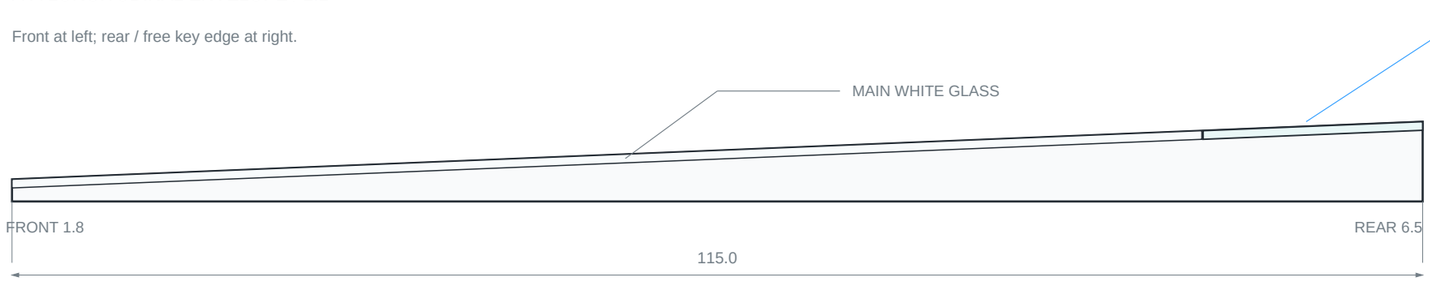
SECTION A-A / FLUSH KEY ACTUATION CONCEPT

INDUSTRIAL DESIGN STUDY

CONCEPT ONLY - NOT FOR MANUFACTURE

A-A LONGITUDINAL ENVELOPE / 2:1

Front at left; rear / free key edge at right.



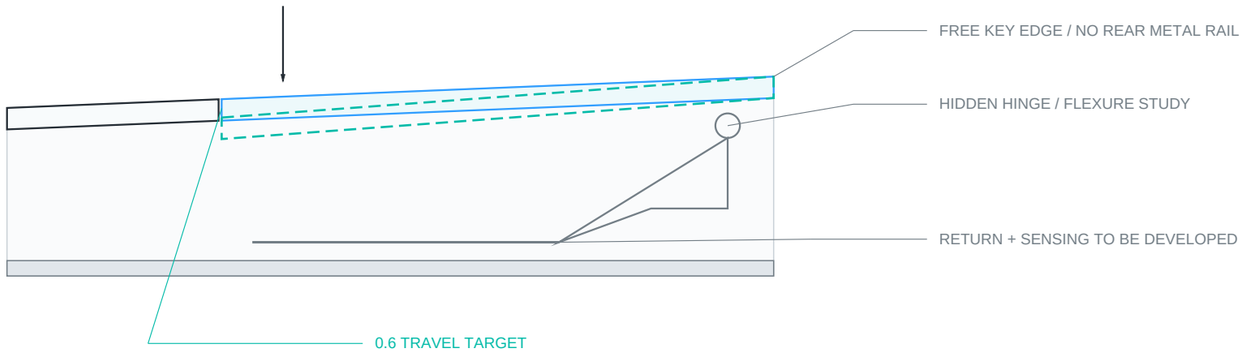
INTERNAL ENVELOPE ONLY

No verified component stack is implied.

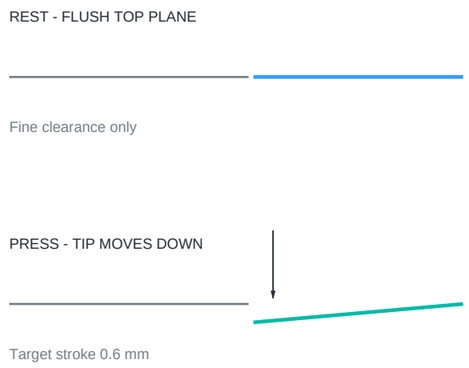
Rear band: 18.0 target

KEY DETAIL / 5:1

Blue = rest. Mint dashed = pressed.



ACTION STATES / NTS



SURFACE & MECHANISM REQUIREMENTS

Resting keys align to the same inclined glass plane.

Near-invisible seam: 0.10 study value, not a released tolerance.

0.7 surface thickness is illustrative; material / strength TBD.

Clearance, return force, flexure fatigue, sealing and acoustic feel need prototypes.

ALL DIMENSIONS ARE PROPOSED DESIGN TARGETS.

No validated tolerances, material release, BOM or tooling data.

Print A3 at 100% for stated scales. Do not scale PNG previews.

FLUSH PIANO-ACTION / WHITE GLASS / ICE BLUE + MINT

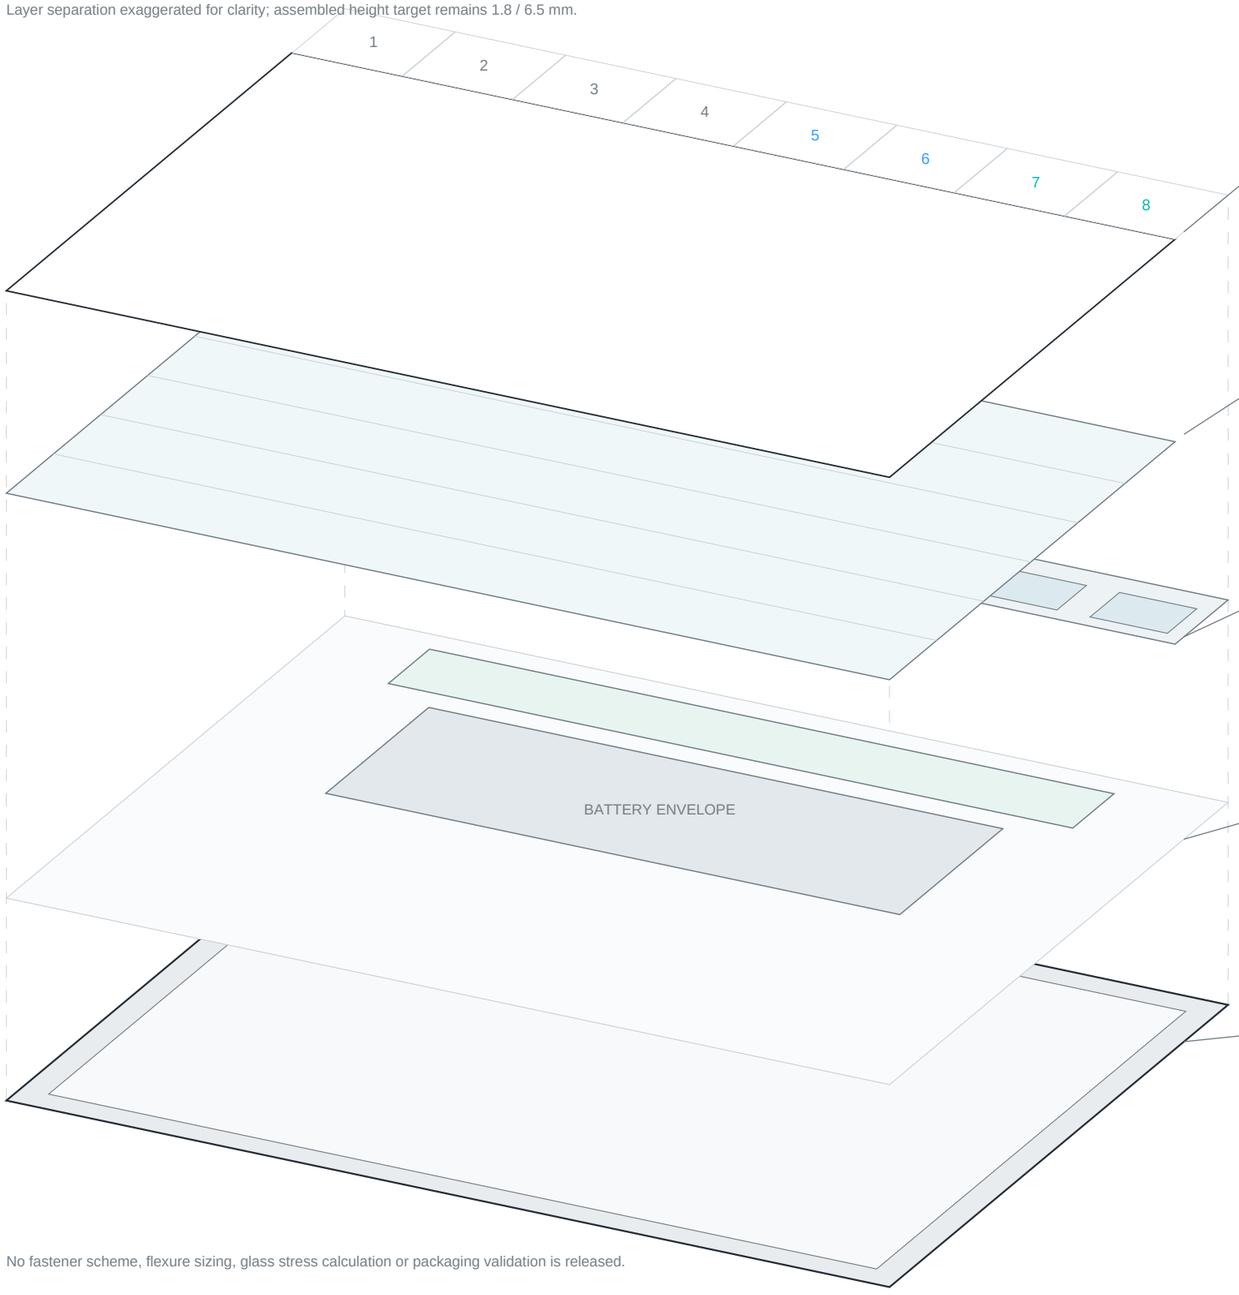
EXPLODED ARRANGEMENT / COMPONENT RESPONSIBILITIES

INDUSTRIAL DESIGN STUDY

CONCEPT ONLY - NOT FOR MANUFACTURE

EXPLODED AXONOMETRIC / ARRANGEMENT ONLY

Layer separation exaggerated for clarity; assembled height target remains 1.8 / 6.5 mm.



1 WHITE TOUCH FACE + FLUSH KEYTOPS

Finish target: satin white; keytop material TBD.

2 TOUCH SENSOR + BOND LAYER

Concept laminate; active area excludes rear keys.

3 PER-KEY RETURN / ACTUATION MODULE

Hinge, flexure and sensing are arrangement studies.

4 POWER / CONTROL PLACEMENT ENVELOPE

No selected battery, electronics or verified BOM.

5 RECESSED STRUCTURAL BASE

No rim behind key tips; no exposed top metal rail.

No fastener scheme, flexure sizing, glass stress calculation or packaging validation is released.

ALL DIMENSIONS ARE PROPOSED DESIGN TARGETS.

No validated tolerances, material release, BOM or tooling data.

Print A3 at 100% for stated scales. Do not scale PNG previews.
